# Workplace Wellbeing Shouldn't Feel Like Work

Investing in your employees' health is easier than you think. Especially when you have a partner focused on ensuring your employees have the health care coverage and support they need.

Wellbeing programs don't just keep costs in check. By increasing employee happiness and productivity, they can also help you retain — and attract — the best talent.

## **Our Workplace Wellbeing Approach**

Our wellbeing team is comprised health and wellbeing professionals — with expertise spanning nutrition, exercise science, nursing, population health management, and health care administration — who partner with you and your employees to develop targeted wellbeing strategies tailored to meet your needs. The result: greater satisfaction and savings, and the best outcomes for your organization and your employees.

### **Along with free access to:**

- Monthly electronic wellbeing messages you can distribute directly to your employees
- Flyers, posters, and infographics on pertinent health topics like e-cigarettes, flu shots, colon cancer screening, women's health, diabetes, and more
- Online videos and articles you can share directly with your employees

# Helping a Top Performer Feel Like Herself Again

**Victoria was a fast-rising star in her organization, full of potential. She pushed herself, but soon found the stress overwhelming.**

Victoria had been suffering from anxiety for several years due to work-related pressures. She tried medications, but they didn't seem to help.

She considered looking for a new job, but knew her current position offered great opportunities for growth.

Victoria wasn't alone. Turns out, a lot of other people in her office were stressed.

With the help of their workplace wellbeing consultant, Victoria's employer created a relaxation room that employees can visit to de-stress during intense periods of work.

Victoria was also able to schedule a consultation with a therapist using the telemedicine services available to her.

**By taking full advantage of these programs, and working with her doctor, Victoria now has better coping mechanisms for her stress, and feels like herself again.**

## What it means for your business

Workplace wellbeing isn't about being generous or helping people get in shape or even just managing health care costs. It's about supporting your team — creating healthy habits and healthy attitudes — so morale and productivity go up. Your people already want to do a good job. When their minds and bodies are strong, your business benefits from the added energy, creativity, innovation, and commitment.

# Healthy Employees Help Drive Your Business Forward

A wellbeing strategy can help keep your employees healthy, while working to help keep your health care costs low.
