Deductible A Plan

With the advantage of moderate premiums, this plan offers a blend of predictability and cost savings through a mix of deductibles and fixed copays. So you'll get the confidence of a comprehensive plan with more freedom than you might expect.

What's covered in full?

Here are some commonly used preventive care services* that are covered in full:

- Adult annual physical examinations
- Adult immunizations
- Bone mineral density measurements or testing
- Family planning and reproductive health services
- Mammograms
- Well-baby and well-child care
- Well-woman examinations

Deductibles and your plan

Your plan includes a deductible.

A deductible health plan is designed to help keep monthly premium costs low for you and your family. Your plan includes a deductible, which means you will pay a negotiated, allowed amount that must be met before the insurance company pays for covered services. This deductible applies to all medical care and prescription drugs, but does not apply to Preventive Care* and Mental Health visits, which are covered in full, or prescription drugs, including diabetic drugs and supplies. After your deductible is met, you will pay a copay or coinsurance for most medical services.

Medical diagnosis-driven services for certain chronic conditions are now included as preventive services that are covered in front of the deductible for Deductible plans (applicable cost shares, such as copays or coinsurance may apply).

Prescription drugs and your plan

Prescription drugs are subject to the deductible, which means you will pay a negotiated, allowed amount for your prescription drugs until you've reached the deductible. After your deductible is met, you will pay a copay. Preventive drugs do not apply to the deductible.

Member benefits

Other things to know about your plan

1

How does the money I pay toward my deductible add up (or aggregate)?

This amount and how it adds up can vary depending on which plan you have. Log into **ExcellusBCBS.com/Member** to view your benefits and learn what your amount is.

Family Aggregation: While this option typically helps keep monthly premiums lower, family aggregation means the entire family's annual deductible must be met by one or any combination of covered members before a copay or coinsurance is applied for any family member.

2

How much will I pay out-of-pocket for this plan? And how does it add up (or aggregate)?

- To help limit your out-of-pocket costs, all of our plans have a maximum amount that any one person will pay. This is called an out-of-pocket maximum.
- This amount varies, depending on which plan you have. Log into **ExcellusBCBS.com/Member** to view your benefits and see your coverage amount.
- **Family Aggregation:** With family aggregation, the entire family's combined out-of-pocket maximum must be met before any individual's services are covered in full. All Family Aggregation plans include an extra layer of protection preventing any individual from exceeding \$8,700 in personal out-of-pocket medical expenses each year. This cap applies to family plans with family aggregation, acting as a safeguard and providing more value in the event of high medical expenses for one individual.

3

What kind of funding accounts work with this plan?

This plan qualifies for a Flexible Spending Account (FSA) or Health Reimbursement Account (HRA).

Preventive Care Covered at 100% before deductible: Eligible in-network preventive services, including recommended screenings, immunizations, annual wellness visits, and preventive counseling, are covered at no cost when provided in accordance with ACA preventive care guidelines

Important terms

Coinsurance

Coinsurance is similar to a copay, but instead of a fixed-dollar amount, you pay a percentage of the negotiated, allowed amount. For example: You need crutches, and your bill is \$100. If your coinsurance is 15%, that means you pay \$15, and the insurance company pays the remaining \$85.

Copays

A fixed amount you pay each time you use a medical service, like a doctor's visit. For example: If your plan's coverage includes a \$20 copay for a Primary Care Provider (PCP), you pay \$20 for each visit to your PCP, and the insurance company pays for the rest.

Deductible

An amount of money you have to pay before the health insurance company will make any payment toward your health care services. For example: If you have a \$3,000 deductible, you pay 100% of the negotiated, allowed amount of your first \$3,000 in medical bills.

After you reach your deductible amount, you may pay a portion of your health care costs, and your health insurance company will pay the rest.

Out-of-pocket maximum

An annual limit on the amount of money that you pay for health care services, not including your monthly premiums.

Unmatched access to the doctors you know

Excellus BlueCross BlueShield gives you access to one of the largest provider networks in the nation. Through the BlueCard® program, you can find participating providers all across America. To see whether your doctor is in the Excellus BCBS network, go to **ExcellusBCBS.com/FindProvider**.
